## **BREAK IN REPORT –**

Crime continues to escalate. Whilst the levels of violent crime are still relatively low, it is on the rise. Cash is a major target.

The good news is that our statistics show that crime for those that have security systems, and use them, is in fact on a par or in some areas slightly down on last year.

So, make use of your security systems and get into a routine where their use becomes second nature. If you need advice on how to use your system, or what you need give your local Safeguard Branch a call, or contact me via WhatsApp on 0772 422 679.
