MUTARE

On the 01/08/16 in the city an alarm signal was received from one of our client. The response team was dispatched and established that there was a break-in at the property. The client was advised and attended. Nothing was reported stolen. **It is suspected the intruders ran away on hearing the alarm sounding**.

On the 11/08/16 in the Morningside area an alarm signal was received at 02:15 hours. The response team was dispatched on arrival they found the main gate open with the gate key broken. They proceeded to check the house and established that there was a broken window. The owner of the house advised nothing was stolen. **It is suspected the intruders ran away on hearing the alarm sounding**.

BULAWAYO

On 11/8/16 at around 01:08hrs intruders allegedly broke into a battery shop in the CBD by climbing over a dura wall and proceeded to the shop where they broke the padlock to gain entry. It was reported that 31 batteries were stolen. The alarm activated and the reaction team attended but however when they checked all doors were locked and there was no sign of break in. It is strongly suspected that the break in could have been stage managed and matter is being investigated by the police. The premises are protected by a high wall and razor wire topping except the western part where there is a low wall. The gate and the shop doors are secured by padlocks and there are motion sensors inside.

On the night of 26/8/16 and at an unknown time, in the suburbs, intruders broke into a house used as an office by an NGO, by climbing over the dura wall and breaking the window pane at one of the offices and also a pane on the French door to gain entry. They stole a cash box, an electric kettle and groceries. **The alarm did not activate since the client had forgotten to arm it a**

On 27/8/16 at around 20:51hrs an attempted break-in was discovered in the CBD at a motor spares shop when the reaction team **attended to an alarm activation**. The intruders had climbed the roof where there is razor wire and sensors. They managed to remove one of the asbestos sheets but there were no signs that they got inside indicating that the alarm activated before they could do so hence they could have fled before the arrival of the reaction team. The client verified that nothing was stolen. The premises are protected by outside sensors, locked and burglar barred doors and a CCTV system.
